Result	Description	Vote	
Passed	The American people are sovereign individuals who exercise sovereignty over their bodies and medical decisions. Under the U.S. Constitution, no one can be mandated by any entity to make any medical decision against their will. The representatives who voted in favor of this bill are standing for individual rights and for holding mandating public and private employers accountable for any ill-effects of their decision to mandate the Covid shot. Failed	This bill simply would have prohibited financial incentives or penalties to encourage healthcare providers to administer vaccinations. This is a protection for patients - to ensure that the vaccination is in the best interest of their health and not that of the financial interest of a healthcare provider. But many in our legislature bowed to the big healthcare lobby at the expense of the people of Louisiana.	N	✗
Passed	This bill will provide protection for Louisiana's agricultural land from purchase by our foreign adversaries. It is a straightforward, Louisiana-first piece of legislation.	Y	✓
